

GOPAL BEHERA

AIML Engineer

Hyderabad, Telangana • +91-6371005693 • gopalbeher24@gmail.com • [LinkedIn](#) • [GitHub](#)

SUMMARY

BTech graduate and AIML Engineer with demonstrated expertise in Data Analytics, Machine Learning (ML), and Deep Learning (DL). Proficient in Python, SQL, Excel, Power BI, TensorFlow, Scikit-learn, Pandas, and NumPy, with hands-on experience building end-to-end analytics and machine learning projects. Skilled in data preprocessing, exploratory data analysis (EDA), feature engineering, predictive modeling, and data visualization. Passionate about leveraging data-driven insights and AI solutions to solve real-world business challenges.

TECHNICAL SKILLS

Programming: Python, MySQL

AI Skills: NLP, Transformer, ANN, CNN, RNN, YOLO, MediaPipe, OpenCV, Langchain, Langgraph, Langsmith, Prompt Engineering

Data Analysis: NumPy, Pandas, EDA, Feature Engineering

Data Visualization: Matplotlib, Seaborn, Power BI, Excel

Machine Learning: Scikit-learn, Supervised & Unsupervised Learning, Regression, Classification, Clustering, Model Evaluation, Cross-Validation

Deployment: Streamlit, CI/CD, MLflow

Core Concepts: Statistics, Probability, Oops

Tools & Technologies: Git, GitHub, VS Code, Jupyter Notebook, PyCharm, n8n, cursor, antigravity, cline, codex

API's: Ollama, Google Gemini, HuggingFace, OpenAI, Fastapi, RestApi, OpenRouter, Groq

Soft Skills: Adaptability, Teamwork, Problem Solving, Communication

PROJECTS

DocuMind AI – Intelligent Document Assistant (RAG) | Python, Streamlit, Google Gemini, ChromaDB, EasyOCR

- Built a multi-document RAG assistant to upload PDFs/images, extract text via PyMuPDF with automatic EasyOCR + OpenCV fallback for scanned pages, and query across documents in natural language
- Designed a chunking and retrieval pipeline with Sentence-Transformer embeddings stored in ChromaDB, tagging chunks per source so search can be scoped to one or all documents
- Integrated Google Gemini for context-grounded Q&A and AI summarization, with retry logic for timeouts and rate limits, plus regex-based entity extraction and a tabbed Streamlit UI with export options

Loan Default Risk Scoring System | Python, SQL, Power BI, Scikit-learn, MLflow, SHAP, Streamlit

- Built an end-to-end credit risk pipeline on 150K+ loan applicants, benchmarking 7 ML models and selecting Logistic Regression (AUC-ROC 0.86) based on false-negative rate to minimize missed defaulters
- Identified a high-risk segment (52.76% default rate, 8x portfolio average) via SQL analysis and Power BI dashboarding
- Tracked experiments in MLflow and deployed a live Streamlit app with SHAP-based explainability for real-time risk scoring

CERTIFICATIONS & TRAINING

Full Stack Data Science with Gen AI & Agentic AI — Naresh IT, Hyderabad | 2026 (Ongoing)

Core topics: LLMs, RAG Pipelines, LangChain, LangGraph, Autonomous Agents, Embeddings, Vector Databases, MCP Server Development, GenAI Deployments

Data Science Course — Code With Harry | 2025 (Completed)

Core topics: Python, SQL Server, Statistics, Probability, Machine Learning, Deep Learning, NLP, Neural Networks

EDUCATION

Bachelor of Technology (BTech) — Kalam Institute of Technology, Berhampur, Odisha | 2022 – 2026 | CGPA: 8.21 / 10

Higher Secondary (Science) — Kalam Science Higher Secondary School, Berhampur, Odisha | 2020 – 2022 | Score: 80.33%

LANGUAGES

Odia (Native) • Hindi (Fluent) • English (Proficient) • Telugu (Intermediate)
